SAFETY APPLIANCES PTY LTD

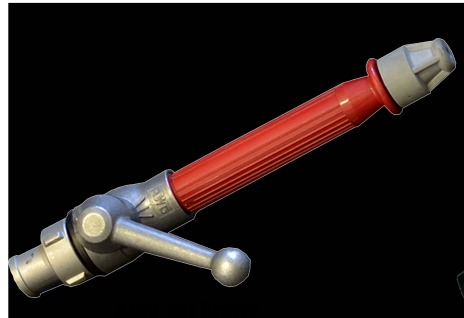

AWG Nozzles (Branch Pipes)

Turbo Nozzle

Jet Spray Curtain

HS2O Universal

AWG Nozzles are the latest evolution in selectable all-weather nozzles. The lightweight compact design makes it easier for firefighters to use and creates less torque from nozzle reaction increasing the overall control.

The unique gas cooling indicator and flush click indicator make AWG Turbo nozzles the easiest and safest nozzles for use in hot conditions for firefighters in extreme environments.

AWG Turbo Twist is the only genuine one-hand sprayer branch pipe with its spring-loaded and self-locking ball-connection. A whole range of innovative nozzles can be attached in just seconds.

Along with all standard applications for application in extinguishing areas such as hollow stream, full stream and foam branch pipes, special application specific attachments can be used on the automatic firefighter's flexible while saving space on a safe vehicle.

It has an excellent spray to improve the extinguishing effect and to dampen down gases and vapours.

PRODUCTS:

AWG6029 : Jet Spray Curtain Nozzle

AWG60788 : Turbo Nozzle

AWG0190 : Mini Jet Spray Nozzle

AWG60197: HS2O Universal Nozzle
